III. OUTPATIENT SERVICES

A. Emergency Outpatient Unit

1. The hospital's emergency facilities and services (usually called the "emergency department" or "emergency room") intended primarily for care of outpatients whose conditions require medical attention. Indicate below the emergency medical care provided that best describes this facility.

○ Comprehensive 24 hours a day, including in-hospital physician coverage for medical, surgical, obstetric, and anesthesiology services by members of the medical staff or senior level trainees.

○ Limited by the lack of immediate coverage in some major specialties, but a physician is always present in the emergency area, a surgeon is immediately available for consultation, and other clinical specialists are on call within 15 to 30 minutes. Following assessment by a physician, a few patients may be transferred to another facility

○ Essentially prompt emergency care available at all times. Basic medical and surgical service is usually supplied within 30 minutes or less. Certain well-defined clinical problems are always immediately transferred to another facility, while others may require specific assessment before transfer.

○ Little or none beyond first aid given by a nurse. There is a written plan relative to handling individuals who inadvertently appear for treatment.

○ Non-existent. There is no emergency service or plan offered at this hospital.

IV. OUTPATIENT SURGERY

A. PATIENT ORIGIN BY ZIP CODE

Please report, by zip code of residence, the total number of outpatient surgery persons (cases) treated by this provider during the reporting period. (This total should equal the totals reported in Section II-F-1-e on page 6). Any outpatient surgeries reported in Section II-F-2 should also be reported in this section. This data shall be submitted as a Microsoft Excel (v. 2003 or later) or CSV formatted file with the remainder of this report. The annual report will not be deemed received by the Agency on behalf of the submitting provider until the utilization portion (the remainder of this PDF document), this Excel or CSV file, AND the Patient Origin file (referenced on pages 14 – 18) are received.

The submitted file should contain the column headers and data formatting shown in the example provided below. Please submit only a 5-digit zip code, not the full 9-digit zip code. Also, please ensure that the Facility ID Number entered in the first column and the Facility ID Number reported on Page 1 are the same, and are correct.
