**MEMORANDUM**

TO: Recipients of the 2004-2007 *Alabama State Health Plan*  
Interested Parties for Statistical Updates to the 2004-2007 *Alabama State Health Plan*

FROM: Alva M. Lambert   
Executive Director

SUBJECT: New procedures for publishing Statistical Updates to the *State Health Plan*

Please be advised that the enclosed statistical updates will be the last set physically mailed to purchasers of the 2004-2007 *Alabama State Health Plan* or to interested parties. Due to ever increasing postage costs, the Agency has looked into alternative means of providing current statistical updates to *State Health Plan* recipients and interested parties. After this update, all future updates will only be published on the Agency's website, [www.shpda.alabama.gov](http://www.shpda.alabama.gov). Using the menu on the left hand side of the screen, select Announcements - SHP. All statistical updates will be linked to on this page in chronological order of their release.

E-mail notifications will be sent to all recipients of the current *State Health Plan*, but in order to send notifications, updated e-mail addresses are required. Please send an e-mail to either [Deborah.Lutz@shpda.alabama.gov](mailto:Deborah.Lutz@shpda.alabama.gov), or to [Clark.Bruner@shpda.alabama.gov](mailto:Clark.Bruner@shpda.alabama.gov) in order to inform the Agency that you wish to continue to be notified when new statistical updates are issued.

**MEMORANDUM**

TO: Recipients of the 2004-2007 *Alabama State Health Plan*

FROM: Alva M. Lambert  
Executive Director

SUBJECT: Statistical Updates to the 2004-2007 *Alabama State Health Plan*

Enclosed are statistical updates to the 2004-2007 *Alabama State Health Plan*. The following sections should be replaced:

410-2-3-.05 End Stage Renal Disease Services, pages 39-40;  
410-2-4-.04 Acute Care (Hospitals), pages 65-66;  
410-2-4-.04 Long Term Acute Care Hospitals (LTACH), pages 77-78;  
410-2-4-.08 Inpatient Physical Rehabilitation, pages 149-150; and  
410-2-4-.10 Psychiatric Care, pages 155-156.

AMI/blw

Enclosures: As stated

(ii) Note that if more than one End Stage Renal Disease facility exists within the defined service area, all present dialysis stations and present patients in all End Stage Renal Disease facilities must be considered in developing a demonstration of need.

2. New End Stage Renal Disease patients projections shall be based on:

(i) The total population of the county in which the stations are to be located plus any contiguous county that does not have a dialysis center.

(ii) Incidence Rate: The definition of incidence rate is the rate at which new events occur in a population. The formula to determine incidence rate is as follows: The numerator is the number of new events occurring in a defined period; the denominator is the population at risk of experiencing the event during this period. Applicant will use the 2006-2010 state average of 434421/million/year or the sum of 750749/million non-white population/year plus 295270/million white population/year within the service area. In 2006-2010 there were 2033-2041 new patients.

(iii) Note that if more than one End Stage Renal Disease facility exists within the service area, the historical distribution of patients between the facilities will be used in determining the number of new patients who will seek services at the applying facility.

(iv) Loss Rate:

(I) Death: 18.416.2% of the sum of the in-center census at the start of each new year plus new patients during the year.

(II) Transplantation: 4.02.8% of the sum of the in-center census at the start of each new year plus new patients.

(III) Home Training: 7.68.0% of new patients.

I. Incidence Rate: statewide average of 2006-2010 434421/million/year, or 750749/million non-white population/year plus 295270/million white population/year.

II. Loss Rate:

Death: ~~18.4~~16.2% of initial census plus new patients.

Transplant: ~~4.0~~2.8% of initial census plus new patients.

Home Training: ~~7.6~~8.0% of new patients.

EXAMPLE:

In-Center Census Start of Year:	100 Patients
New Patients During Year:	<u>50</u> Patients 150
Less: 16.2% Death	<u>2824</u>
Less: 2.8% Transplant	<u>64</u>
Less: 8.0% Home Training	<u>412</u>
In-Center Census, Year End	<del>112</del> <u>110</u>

Note: Figures for incidence rates and loss rates were obtained from the 2006 2010 Network 8, Inc. Annual Report <http://www.esrdnetwork8.org>.

3. A kidney transplant is a surgical procedure by which a healthy kidney is removed from one person and implanted in the ESRD patient. Transplantation is, ideally, a one-time procedure: if the donated kidney functions properly, the patient can live a relatively normal life. There is only one transplant center operating in Alabama. The University of Alabama Hospital located in Birmingham is one of the largest kidney transplant centers in the country with ~~328-266~~ transplants in ~~2006~~2010. The number of patients waiting for transplants is ~~3,266~~474.

4. A free-standing licensed pediatric facility shall have the ability to make application directly to the Certificate of Need Review Board for the purpose of adding dialysis stations serving pediatric patients, provided it can clearly demonstrate that the need cannot be met by existing ESRD facilities.

Data based on 2008 Hospital Annual Reports (Form BHD-134A)  
Existing Beds are beds in use as of 9/30/2008. CON Beds reflect CONs issued after that date.

2008 Patient Days are all acute care patient days for the 2008 reporting period excluding pediatric care  
2008 ADC is the average daily census, per county, for FY2008 using the listed 2008 Patient Days
