III: Facilities

Total number of licensed beds: Indicate the number of vested CON-Authorized beds (licensed by ADPH) on the last day of the reporting period.

NOTE: A “vested” CON-Authorized bed is a bed which has been included in the inauguration of the service (SCALF) offered. **EXAMPLE:** A SCALF has CON Authorization for ten (10) beds, and holds licensure from ADPH for ten (10) beds - the service is inaugurated for ten (10) VESTED CON-Authorized beds. If that same facility has another CON issued for an additional five (5) beds, but these beds are not yet ready for occupancy, and are not licensed by ADPH, these beds are NON-VESTED beds, and are not to be reported in this section.

Admissions by Source of Payment: Indicate on the appropriate line the number of private pay admissions and the number of “Other” admissions. VII: Resident Days

- 1. Number of Licensed Beds:** List the total number of vested CON-Authorized beds licensed by ADPH during the reporting period. *Note: If the number of licensed beds either increased or decreased during the reporting period, indicate the number of licensed beds and the number of days during the reporting period for each licensed capacity. Example: If the facility was licensed for 14 beds for 120 days and 16 beds for the remaining 245 days of the reporting period, line 2 would show the sum of $14 * 120 + 16 * 245$.*
- 2.** Multiply the number of licensed beds listed above by 365 (the number of days in the reporting year) to determine the total number of available days.
- 3. Total number of unoccupied days:** List the total number of days in which beds were unoccupied due to vacancies, deaths, and discharges. Also, include 365 days for *every bed* (vested CON-Authorized) licensed by ADPH but not set up and staffed during the reporting period.
- 4. Total Resident Days:** Subtract the total number of unoccupied days (line 3) from the total number of available days (line 2) to determine the total number of resident days for the facility during the reporting period.
